iDISPLAY™ Tablet 13.3″ UIT413

The iDISPLAY Tablet 10.1" is designed as an interactive display for any location. Operating on an Android operating system and powered by Pulse technology, this slim and elegant display includes all of the solutions needed for commercial locations. Attach to any standard TV/monitor VESA bracket and simply turn on the power. It is a fully interactive commercial display that uses capacitive touch, built in WiFi and LAN, and a host of integrated features that work in either landscape or portrait format. With the option to expand to 3G services*, this is an amazing, interactive digital display that creates an engaging, memorable consumer experience.
